thread, bringing them up beneath the warps, and then passing the needle back through the beads on top of the wraps.

How to Get Started With Loom Beading - The Spruce Crafts

Bead weaving is a beadwork technique in which seed beads are woven together using thread to create a flat "fabric" or a three-dimensional shape such as a ball, clasp or tube. You can bead weave an entire piece of jewelry, or weave a component to use as part of a project.

Bead Weaving 101: Getting Started with Off-Loom Bead ...

Beading looms all have the same basic design with weaving achieved by inserting the weft threads (side to side threads) over and under the stationary warp threads (up and down threads). The warp threads are held in place by tension, and the weft threads, which hold your beads, are woven between the warp threads.

Bead Looming 101: Beading and Jewelry Making on a Bead ...

Tie a knot at the end, around the eye bolt if necessary, to attach or secure the top part to the weaving loom. Some people create a loop knot and just place it over the eye-bolt. Then, use your hand to figure out the thread placement, so the pieces can be separated and the other end tied to the other eye-bolt.

Simple Bead Weaving Loom & Bracelet : 4 Steps (with ...

As with any beading technique, keeping consistent tension while looming is vital. Even tension will keep the beads perfectly aligned within each warp and will also maintain straight edges for the length of the piece. Tammy demonstrates a few tactics while looming that will keep your tension even. It makes all the difference. Ending and Adding Threads
