I recently bought a really nice Hesston 560 Round Baler from a guy that is having trouble with the tailgate going up, everything works fine on the baler except the tail gate won't raise. We have checked the basics such as fluid levels and can't quite figure it out. I have been told it's either electric or the pump is bad?

Hesston has been known as the hay and forage innovator since 1955, when the company developed the first commercially available self-propelled windrower. Other industry firsts have included the first hydrostatic windrower, the first center-pivot mower-conditioner and the first big square baler—which had nearly 50 individual patents of its own.
