Summer is one of the four seasons that make up the year. It is the warmest time of the year and falls between spring and autumn, the intervening periods that lead from and to winter, the coldest time of the year. Astronomical summer vs. meteorological summer There are various ways to define the start and end dates of summer.

When is Summer 2020? - Calendarpedia

I've been making these coin-shaped zucchini pickles all summer. They're quick to make, great to have on hand, and I don't bother canning them. Delicious on crusty, goat-cheese slathered grilled bread (or just about anything cheesy or crunchy) and simple salads.

Summer - 101 Cookbooks

Seasons in the Southern Hemisphere are opposite to those in the Northern Hemisphere. For example, under the definition of astronomical seasons, the June solstice marks the start of summer in the Northern Hemisphere, but it is the start of winter in the Southern Hemisphere. The same rule applies for the other seasons.
